#136

Northeast Area Office of Information Services

RELEASED IN WASHINGTON: March 2, 1953

(This is background information only --  
not for publication as an official list)

FOODS TO FEATURE

The foods listed below are expected to be in plentiful supply in June and September 1953. This is not a forecast or an appraisal of supply conditions but is based on historical patterns of production and marketing. It is expected that the foods listed will be included in the list of plentiful foods for the designated months, issued by the Production and Marketing Administration.

These foods are stressed through nation-wide informational activities and through food trade merchandising. The report is prepared to inform you about plentiful foods which you may want to consider featuring in food advertising for the months designated.
